## Quality Training Assured

Complete Practical; Real-time Job Oriented Training

### SSAS Tabular Mode with Azure

This **SSAS Tabular Mode course with Azure** is applicable for everyone who wanted to learn about Data Modelling, Online Analytical Database Processing (**OLAP**) Databases, **Cube** Design, **MDX** (Multidimensional Expression Language) Queries, **DAX** (Data Analysis Expression) Queries, DAX Expressions, Power Query, Analysis Server Deployments, XMLA Concepts, Cube Browsing, Excel Analytics, Power BI Cube Reports and more .. !

#### What does this course includes?

This SSAS Tabular Mode with Azure course with Azure includes end to end Business Intelligence (BI) implementation with **On-Premise** and **Azure** Data Sources. Course Highlights below:

SSAS Tabular Mode with Azure (Cube Design)			
1	Data Models & Relations	10	Partitions and Perspectives
2	Cube Design Concepts	11	KPIs (Key Performance Indicator)
3	Dimensions, Attributes	12	In-Memory Database Concepts
4	Measure Groups, Measures	13	OLAP Database Deployments
5	Hierarchies & Relations	14	Deployment Scripts, Cloning
6	Power Query, Data Formatting	15	XMLA Concepts & Job Schedules
7	DAX Concepts: Measures	16	OLAP Cubes: Optimizations
8	DAX Concepts: Measures	17	OLAP Database with Excel Analytics
9	DAX : Time Intelligence	18	OLAP Database with Power BI

#### Who can join this course ?

Anyone with prior knowledge on SQL Server TSQL can join this practical, job oriented course.

## What is the mode of Training?

**LIVE Online  
Training**

**Self Paced  
Video Training**

## What is the duration of this course?

**12 Chapters = 12 Hours practical training classes.**

**Each Chapter has 2 parts. Each part for 30 mins. Total of 24 Videos.**

**100% Practical, Realtime Examples.**

Same content and examples, concept wise tasks for both LIVE Online Training as well as for Self Paced Video Training.

## Who is the Trainer?

**Mr. Sai Phanindra Tholeti** , having more than 18 Years of Real-time expertise on Microsoft Cloud, Azure, SQL Database, Business Intelligence, Power BI, Power Platform, Snowflake and more..

Having more than 15 Years of Training experience with step by step guidance and care for EVERY concept mentioned, promised in the course curriculum !
